## **Criterion 22:** Other Scoring Points Available (up to 9 points)

Criteria include:

- Additional deep income targeting;
- New construction, 35 units or less, no rehab;
- Located in a town with population <16,000;
- Located in a town with no “active” LIHTC projects;
- Preference for active duty, honorably discharged or retired veterans.
- Women and Minority Owned Businesses

# Other Changes in the 2023 QAP

- 4% TEB projects – distance to fresh produce
- Supplemental LIHTC limits waiver
- 20-year requirement not required to participate
- Application Deadline now January 20, 2023
- Direct Cost Deposit now \$12,000

- 2022 Design Requirements (including HERS)
- Located within 15 minutes of facility with fresh produce
- Market study vacancy rate in PMA of less than 10%
- Market to local PHA
- Preference for veterans in tenant selection criteria

# Cost Certification

*Certification by a CPA is required to certify compliance with the 10% test as defined in Section IV.G.8.a. Prior to the issuance of a LIHTC certification (IRS Form 8609), MFA will require two Cost Certifications to be prepared, one by an independent CPA and executed by both the CPA and Project Owner, and a second Cost Certification prepared and executed by the general contractor. The Cost Certification prepared and executed by the general contractor should reflect real costs to the general contractor, but those cost may not be reflected in the CPA-prepared Cost Certification if the project entered into a Maximum Guaranteed Price or Stipulated Sum Contract for example. In those cases, the owner-incurred costs should be reflected in the CPA-prepared document, regardless of the general contractor costs. The general contractor Cost Certification may not meet MFA cost requirements if a Maximum Guaranteed Price or Stipulated Sum Contract was utilized.*

# Cost Certification (Form A)

- MFA audit may be required
- Fully substantiate all line item balances
  - invoices, settlement statements, cancelled checks, lien release waivers
- Details how balance of each line is tabulated available
- Consistency between supporting documents and Form A

# General Contractor's Cost Certification

- Not required for Stipulated Sum Contracts
- Not required for Maximum Guaranteed Price Contracts

# Mandatory Design Standards

## MFA 2023 Mandatory Design Standards for Multifamily Housing Part A

The following Design Standards, including the MFA 2023 Submission Instructions for Preliminary Architectural Documentation for Multifamily Housing Applications, contained herein as Part B, represent the minimum requirements for New Mexico Mortgage Finance Authority (MFA) financed rental housing and are herewith incorporated by reference into MFA's 2023 Qualified Allocation Plan (QAP). Capitalized terms are defined either herein or in the QAP.

MFA values excellence in design because well designed housing meets the needs of tenants, attracts market tenants and promotes community acceptance of housing financed by MFA. All Projects shall meet or exceed each of these standards, as well as the minimum requirements of all applicable building codes (hereinafter referred to as "Code"), regulations, and local zoning ordinances. In addition, Projects shall meet Americans with Disabilities Act (ADA) and Fair Housing Act (FHA) requirements as applicable. Depending on the funding sources and other partners' requirements, the Project may also be subject to Uniform Federal Accessibility Standards (UFAS) requirements. Projects receiving HOME and/or HOME-ARP funding must meet the property standards of 24 CFR 92.251. Projects receiving National Housing Trust Funds must meet the property standards of 24 CFR 93.301 (f) (1) and (2). Projects receiving Coronavirus State and Local Fiscal Recovery Funds pursuant to the Final Rule published May 17, 2021, as amended, must meet the property standards of HOME and/or National Housing Trust Fund, as applicable. The development team is responsible to know and meet all accessibility requirements for their Project. MFA will not be reviewing submissions with the intent to identify compliance with these various laws, codes, and ordinances governing the design of the projects. Should we find a discrepancy in a design that does not meet a law, code, or ordinance, we will, as a courtesy, inform the designer of our findings. Our review does not constitute nor represent the project's compliance with all applicable laws, codes, or ordinances; and development team members may not rely on MFA or its agents for final determination. In light of the complexity of adherence to all various code requirements, some projects may require additional review. Each

# Universal Underwriting Supplement

## MFA 2023 Universal Multifamily Initial Underwriting Supplement

This underwriting supplement outlines the standards that MFA will use when underwriting Initial Applications submitted for consideration for 2023 LIHTC and gap funding allocations. MFA underwrites Initial Applications for two purposes: 1) to determine the amount of credits that may be allocated to each proposed Project and 2) to determine the financial feasibility of each proposed Project. MFA will use the most conservative of the financing terms listed in: this underwriting supplement, the 2023 QAP (if applicable) and the proposed Project's Financing Commitment(s) or letters of interest.

### General Guidelines

#### Awards

MFA will not award additional funding to any active new construction and/or acquisition rehabilitation projects after they have been placed in service, which is defined as receiving a Certificate of Occupancy for new construction or a Certificate of Substantial Completion for acquisition rehabilitation.

### Construction Guidelines

#### Builder profit, overhead and general requirements

In Projects where an "identity of interest" (as defined in this section) is not present, builder profit may not exceed 6 percent of construction costs, builder overhead may not exceed 2 percent of construction costs and general requirements may not exceed 6 percent of construction costs. For purposes of these calculations, see definition of construction costs in the Glossary.

Where an identity of interest exists between or among the Developer/Project Owner, builder (i.e., the general contractor), design professionals and/or subcontractors, builder profit shall not exceed 4 percent of construction costs. An identity of interest means any relationship that is based on shared family or financial ties between or among the Developer/Project Owner, builder (general contractor), design professionals and/or subcontractors that would suggest that one entity may have control over or a financial interest in another.

#### Architect and Engineering Fees

The architects' fees, including design and supervision fees, and engineering fees, must be capped at 3.3 percent of Total Development Cost. Architects' fee and engineering fees shall be deducted from Total Development Cost when calculating this fee cap.

<u>6%</u>	Allowed percentage for Profit
\$383,310	Maximum for Profit (if no identity of interest)
<u>\$383,310</u>	Application Profit

<u>2%</u>	Allowed percentage for Overhead
\$127,770	Maximum for Overhead
<u>\$127,770</u>	Application Overhead
\$0	(Excess)/under used

# Developer Fee Calculation

9% Project Developer fees\* may not exceed:

- First 30 low-income Units - \$22,500 per Low Income Unit, plus
- LI Units 31-60 - \$20,000
- LI Units 61+ - \$17,500
- Total Developer Fee limited to lesser of:
  - \$2M calculated as above or 14% TDC

\*Further reduction when there is an identity of interest between buyer and seller.

# Poll 6

# Developer Fee Calculation

\$6,388,500	Total Development Costs
x 14%	Maximum Fee Percentage
<hr/>	
\$894,390	Maximum Developer Fee

# Developer Fee Calculation

- Acquisition/Rehabilitation Developer Fee Split
- 30% basis proportionate to acquisition cost (not including land)/TDC
- Assume the following amounts:
  - Acquisition Costs in Basis (ACB) = \$100,000
  - Total Development Costs (TDC) = \$1,000,000
  - Total Developer Fee (TDF) = \$140,000
- What is the split?

ACB / TDC = Percentage of Acquisition portion of Developer Fee (%DF)	$\$100,000 / \$1M = 10\%$
%DF x TDF = Amount of Acquisition portion of Developer Fee (ADF)	$10\% \times \$140,000 = \$14,000$
TDF – ADF = Amount of Rehab portion of Developer Fee	$\$140,000 - \$14,000 = \$126K$

Therefore, the \$140,000 developer is split between acquisition for \$14,000 and rehabilitation at \$126,000.

Q & A

# Environmental Review

An environmental review is the process of reviewing a project and its potential environmental impacts to determine whether it meets federal, state, and local environmental standards. The environmental review process is required for **all HUD-assisted projects** to ensure that the proposed project does not negatively impact the surrounding environment and that the property site itself will not have an adverse environmental or health effect on end users. Not every project is subject to a full environmental review but **every project must be in compliance with** the National Environmental Policy Act (NEPA), and other related Federal and state environmental laws.

- HOME, NHTF, Risk Share, and any other federal fund source must complete environmental review before site control or execution of loan documents to avoid a choice limiting action.
- Projects with NHTF funding only must complete Environmental Provisions process before construction completion.
- Keep in mind the timing of the environmental review process. You can complete review before submission of loan application. On average a review can take up to 4 months to complete.
  - You will receive environmental review packets after Loan Award Letter is sent out.
- Training can be provided upon request by MFA. HUD Exchange website has training modules.
