Independent Auditors' Report

The Authority Members
New Mexico Mortgage Finance Authority and
Mr. Hector H. Balderas, New Mexico State Auditor:

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of the New Mexico Mortgage Finance Authority (the Authority), a component unit of the State of New Mexico, as of and for the years ended September 30, 2014 and 2013, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the New Mexico Mortgage Finance Authority as of September 30, 2014 and 2013, and the changes in financial position, and cash flows thereof for the years then ended, in accordance with U.S. generally accepted accounting principles.

Emphasis of Matter

Adoption of New Accounting Pronouncement

As discussed in note 1(b) to the financial statements, effective October 1, 2013, the Authority adopted Governmental Accounting Standards Board (GASB) Statement No. 65, Reporting of Items Previously Reported as Assets and Liabilities. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require that the Management's Discussion and Analysis on pages 5–12 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the GASB who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by the U.S. Office of Management and Budget Circular A-133, and schedule of pledged collateral for public funds are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying schedule of expenditures of federal awards and the schedule of pledged collateral of public funds are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and the schedule of pledged collateral for public funds are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 23, 2014 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

KPMG LLP

Albuquerque, New Mexico December 23, 2014

(A Component Unit of the State of New Mexico)

Management's Discussion and Analysis (Unaudited)
September 30, 2014 and 2013

In 1975, the New Mexico state legislature created the New Mexico Mortgage Finance Authority (the Authority), as a governmental instrumentality of the State of New Mexico. The purpose of the Authority is to raise funds from public and private investors in order to finance the acquisition, construction, rehabilitation and improvement of residential housing for persons and families of low to moderate income New Mexicans.

This section of the Authority's annual financial report presents management's discussion and analysis of financial position and changes in financial position for the fiscal years ended September 30, 2014, 2013, and 2012. This information is being presented to provide additional information regarding the activities of the Authority and to meet the disclosure requirements of Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments* (GASB No. 34). The Authority is a self-supporting entity and follows business-type activity reporting; accordingly, the financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Enterprise fund statements offer short-term and long-term financial information about the Authority's activities. This analysis should be read in conjunction with the independent auditors' report, audited financial statements, and accompanying notes.

Effective October 1, 2013, the Authority implemented GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which is effective for financial statements for periods beginning after December 15, 2012. This Statement establishes accounting standards to reclassify certain items that were previously reported as assets and liabilities as deferred outflows or inflows on the Statement of Net Position. This Statement also recognizes certain items that were previously reported as assets and liabilities as outflows or inflows of resources on the Statements of Revenues, Expenses and Changes in Net Position. Accounting changes adopted to conform to the provisions of this statement were applied retroactively by restating the basic financial statements for all prior periods presented.

Financial Highlights

The Authority's financial position and results of operations for the current and two most recent prior years are summarized below (in thousands):

		2014	2013 (restated)	2012 (restated)
	_	2014	(restated)	(restated)

Restricted for land title trust and housing trust		25,881	24,512	20,913
Unrestricted	-	132,477	126,970	115,705
Total net position	\$	241,549	231,889	264,157

Comparison of Years Ended September 30, 2014 and 2013

The decrease in cash and cash equivalents of \$37.4 million reflects a reduction in restricted cash related to bond financing for the Single Family Mortgage Program as a result of decreased debt service cash collected due to lower outstanding debt balances and reduced interest through actions to restructure debt. Other factors include more timely bond program redemptions related to prepayments and excess revenues from securitized mortgage loans, and new bond structures with monthly and quarterly call provisions, thus providing better liquidity management in relation to the Single Family Bond Program. The Authority purchased \$15.4 million in Mortgage Backed Securities (MBS) and \$13.0 million in whole loans during the year; MBS and whole loan purchases were offset by MBS prepayments of \$91.5 million and whole loan prepayments of \$0.7 million, reflected in the \$99.3 million net decrease of MBS and mortgage loans receivable. Essentially, loan prepayments occurred without a corresponding increase in new loans. Due to market conditions, in late 2013, the Authority began utilizing the secondary market to fund the majority of its single family mortgage loans. This execution provides a

6

(A Component Unit of the State of New Mexico)

Management's Discussion and Analysis (Unaudited) September 30, 2014 and 2013

funding mechanism for the Single Family Mortgage Program when a bond transaction is not viable; the MBS are sold into the secondary market. The current interest rate environment continues to limit the Authority's ability to issue new bonds; current interest rates for mortgage loans have been lower than interest rates on new bond issuances. This business model is used by many Housing Finance Agencies across the country to assist in keeping single family programs competitive and in stabilizing revenue streams. The \$6.7 million increase in investments is primarily attributed to the \$7.8 million investment in Authority's MBS. Using available liquidity MBS were purchased as part of a bond refunding to hold in the intermediate-term investment portfolio. The overall effect of these elements resulted in the 10.9% decrease in total assets. The TBA funding execution also impacts the liabilities of the Authority. Over the past year, the Authority experienced a \$141.1 million net decrease in bonds payable. As already noted, single family loans are being sold and not funded with debt, thus Authority liabilities decreased 14.6%. Proceeds from the issuance and sale of bonds and notes payable were \$35.0 million; bond repayments and refundings totaled \$170.9 million, resulting in the net decrease for the year. The Authority received \$115.9 million in repayments, including prepayments, of securitized mortgage loans and \$10.8 million of whole loan and down payment assistance loan repayments during the year.

Comparison of Years Ended September 30, 2013 and 2012

The decrease in cash and cash equivalents of \$57.1 million reflects a reduction in restricted cash related to bond financing for the Single Family Mortgage Program and is indicative of more timely bond program redemptions related to prepayments and excess revenues from securitized mortgage loans as well as new bond structures with monthly and quarterly call provisions, thus providing better liquidity management in relation to the single family bond program. The Authority purchased \$103.3 million in Mortgage Backed Securities (MBS) and \$13.4 million in whole loans during the year; however, MBS and whole loan purchases were offset by MBS prepayments of \$188.1 million and whole loan prepayments of \$1.0 million, reflected in the \$134.8 million net decrease of MBS and mortgage loans receivable. The \$5.3 million increase in investments is primarily attributed to the \$3.0 million investment of the Housing Trust Fund appropriation received from the State of New Mexico in the State Investment Council portfolio. The overall effect of these elements resulted in the 13.5% decrease in total assets. Over the past year, the Authority experienced a \$152.6 million net decrease in bonds payable. Proceeds from the issuance and sale of bonds and notes payable were \$102.0 million; bond repayments and refundings totaled \$249.7 million, resulting in the net decrease for the year. The Authority received \$197.7 million in repayments, including prepayments, of securitized mortgage loans and \$9.9 million of whole loan and down payment assistance loan repayments during the year.

(A Component Unit of the State of New Mexico)

Management's Discussion and Analysis (Unaudited)

September 30, 2014 and 2013

Change in Financial Position

The Authority's operating income for the year increased by approximately \$44.7 million when compared to fiscal year 2013. The following table is a condensed summary of changes in net position for the years ended September 30, 2014, 2013, and 2012 (in thousands):

	 2014	2013 (restated)	2012 (restated)
Operating revenues:			
Interest on loans and MBS	\$ 41,279	45,875	53,422
Interest on securities and investments	3,110	4,176	4,434
Program revenues	1,558	1,314	1,626
Net (decrease) increase in fair value of investments	2,795	(39,947)	(1,723)
Loan and commitment fees	198	1,273	1,156
Administrative fees	5,031	2,737	3,047
Other revenues	 1,449	159	6,814
Total operating revenues	 55,420	15,587	68,776
Operating expenses:			
Interest expense	35,137	42,200	49,648

Total operating expenses	 45,971	50,864	60,816
Operating (loss) income	 9,449	(35,277)	7,960
Nonoperating revenues (expenses):			
Grant award income	42,228	47,174	57,690
Grant award expense	(42,228)	(47,174)	(57,690)
State appropriations	200	3,000	_
Land title trust contributions	 11	9	12
	 211	3,009	12
Change in net position	9,660	(32,268)	7,972
Total net position, beginning of year	 231,889	264,157	256,185
Total net position, end of year	\$ 241,549	231,889	264,157

Comparison of Years Ended September 30, 2014 and 2013

The change in fair value of securities for 2014 was an increase of \$2.8 million compared to a decrease of \$39.9 million in 2013. This line represents a decrease in the overall fair value of investments, including securitized mortgage loans, held at September 30, 2014 compared to their fair value at September 30, 2013 due to a slight decrease in market interest rates of approximately 0.12% at September 30, 2014 compared to September 30, 2013, which was partially offset by a decrease in securitized mortgage loans at September 30, 2014 of \$103.5 million compared to September 30, 2013. As required by GASB Statement No. 31, Accounting

8

(A Component Unit of the State of New Mexico)

Management's Discussion and Analysis (Unaudited)
September 30, 2014 and 2013

and Financial Reporting for Certain Investments and for External Investment Pools (GASB No. 31), we account for investments in securitized mortgage loans at fair value. These MBS serve as collateral for the single family bonds issued by MFA and provide the revenue source to repay these debt obligations and legally MFA cannot sell/trade the related securities until the bonds are paid in full. The Authority's rating agencies do not include GASB No. 31 valuation adjustments in their analysis of the HFA's performance. Without the required GASB No. 31 adjustment, the operating income for the period increased \$2.0 million compared to prior year.

Operating revenues increased \$39.8 million from 2013 to 2014; however, without the required GASB No. 31 adjustment operating revenues were \$2.9 million less than in 2013. The low interest rate environment has continued to impact interest income-related revenue. As a result of a continued drop in MBS and mortgage loan production as well as high prepayment activity, the Authority experienced a decrease in mortgage interest revenue of approximately \$4.6 million in the current year. The Authority experienced an increase of \$2.3 million for administrative fees due to transaction fees related to loan sales in the secondary market in 2014. Also in 2014, nonoperating revenues decreased by \$2.8 million in comparison to 2013 due to the recognition of a Housing Trust Fund appropriation received from the State of New Mexico in 2013.

Operating expenses decreased by \$4.9 million in 2014, approximately 10%, primarily due to decreased interest expense of \$7.1 million as a result of lower bond expenses due to continued prepayments and debt restructuring.

Comparison of Years Ended September 30, 2013 and 2012

The change in fair value of securities for 2013 was a decrease of \$39.9 million compared to a decrease of \$1.7 million in 2012. This line represents a decrease in the overall fair value of investments, including securitized mortgage loans, held at September 30, 2013 compared to their fair value at September 30, 2012 due to an increase in market interest rates of approximately 0.81% at September 30, 2013 compared to September 30, 2012, which was partially offset by a decrease in securitized mortgage loans at September 30, 2013 of \$98.2 million compared to September 30, 2012. As required by GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools* (GASB No. 31), we account for investments in securitized mortgage loans at fair value. These MBS serve as collateral for the single family bonds issued by MFA and provide the revenue source to repay these debt obligations and legally MFA cannot sell/trade the related securities until the bonds are paid in full. The Authority's rating agencies do not include GASB No. 31 valuation adjustments in their analysis of the HFA's performance. Without the required GASB No. 31 adjustment, the operating income for the period decreased \$5.0 million compared to prior year.

Operating revenues decreased \$53.2 million from 2012 to 2013; however, without the required GASB No. 31 adjustment operating revenues were \$15.0 million less than in 2012. The low interest rate environment has continued to impact interest income-related revenue. As a result of a continued drop in MBS and mortgage loan production as well as high prepayment activity, the Authority experienced a decrease in mortgage interest revenue of approximately \$7.5 million in the current year. The Authority experienced a decrease of \$6.7 million for other revenue due to nonrecurring investment gains related to an MBS sale transaction in 2012, and lower realized market value gains on investments in the State Investment Council Funds Program. In 2013, nonoperating revenues increased by \$3.0 million in comparison to 2012 due to the recognition of a Housing Trust Fund appropriation received from the State of New Mexico in 2013.

(A Component Unit of the State of New Mexico)

Management's Discussion and Analysis (Unaudited) September 30, 2014 and 2013

Debt Administration

Most of the debt issued by the Authority to fund affordable housing activities in New Mexico is tax-exempt and is issued under the Internal Revenue Code and Treasury Regulations governing either mortgage revenue bonds or residential rental projects. The Federal Tax Reform Act of 1986 imposes an annual ceiling on the aggregate amount of federally tax-exempt private activity bonds or Private Activity Bond Cap (Bond Cap). Each year, the New Mexico State Board of Finance receives and allocates Bond Cap based on the federal formula to both single and multifamily housing for tax-exempt bonding purposes.

The Authority continually investigates and utilizes financing and debt management techniques designed to achieve its goals of minimizing interest expense and efficiently utilizing Bond Cap while managing risk and responding to changing capital markets. The Authority evaluates other innovative financing structures and asset/liability management strategies as needed to maximize earnings in both the long and short term. This includes using existing liquidity to warehouse loans in order to minimize bond acquisition fund negative arbitrage, utilizing pass-through bond structures, refining internal processes for ensuring that cash received in relation to prepayments is used to redeem bonds as quickly as possible, and reviewing callable programs to determine if earnings could be maximized by eliminating debt and using the assets to generate more income or as subsidy to upcoming bond issues creating more competitive mortgage rates. The Authority reviews and monitors program parity, cash flow projections, prepayment speeds and internal rates of return. Management of the overall bond portfolio and related assets is an ongoing process. During fiscal year 2014, the Authority issued \$28.0 million of Single Family Mortgage Program revenue bonds of which approximately \$12.5 million was a bond refunding transaction. This is \$63.7 million less than the \$91.2 million issued in 2013. MFA did sell \$98.2 million of single family first-time homebuyer mortgages during the course of the year. As noted above, the sale of loans versus issuing debt to fund the Single Family Mortgage Program has become an integral funding execution. Due to utilization of pass-through bond structures, improved timing of redeeming bonds with cash received from prepayments, the continuous lending loan origination model, and utilization of the secondary market to fund single family loans, negative arbitrage expenses decreased approximately \$2.9 million this fiscal year in comparison to 2013. The Authority redeemed \$163.2 million of Single Family Mortgage Program bonds due to repayments, compared to \$242.4 million in 2013.

During fiscal year 2013, the Authority issued \$91.2 million of Single Family Mortgage Program revenue bonds of which approximately \$11.2 million was a bond refunding transaction. This is \$57.2 million less than the \$148.4 million issued in 2012. MFA did sell \$42.2 million of single family first-time homebuyer mortgages into the secondary market during the course of the year, providing a funding mechanism for the Single Family Mortgage Program when a bond execution is not viable. Rather than funding the single family loans through bonds, the related MBS are sold into the secondary market. The current interest rate environment continues to limit the Authority's ability to issue new bonds as current interest rates for mortgage loans have been lower than interest rates on new bond issuances. The sale of loans versus issuing debt has become an integral funding execution for the Single Family Mortgage Program. During the course of this fiscal year, bond issues and mortgage rates were subsidized using zero participations generated through the NIBP program and refunding bond issues. Due to utilization of pass-through bond structures, improved timing of redeeming bonds with cash received from prepayments and the continuous lending loan origination model, negative arbitrage expenses decreased approximately \$0.2 million this fiscal year in comparison to 2012. The Authority redeemed \$242.4 million of Single Family Mortgage Program bonds due to repayments, compared to \$280.9 million in 2012.

(A Component Unit of the State of New Mexico)

Management's Discussion and Analysis (Unaudited) September 30, 2014 and 2013

During fiscal year 2014, the Authority did not issue any Rental Housing Bonds, while in 2013, \$7.5 million in Rental Housing Bonds were issued. In 2014, \$1.6 million of Rental Housing Bonds were redeemed due to repayments compared to \$6.3 million in 2013.

More detailed information about the Authority's outstanding debt obligations is presented in notes 5, 6, and 7 of the notes to the basic financial statements.

Economic Outlook

The Authority's Single Family Mortgage Program, administration of federal affordable housing programs and investment income are the main sources of revenues. During 2014, the Authority's programs and investment returns continued to be adversely affected by erratic capital markets, a continued sluggish housing market and federal fiscal policy. We did begin to see better overall economic performance this year as gross domestic product was strong and unemployment decreased.

The Authority's Single Family Mortgage Programs rely on short-term liquidity from the Master Servicers, which purchase the mortgage loans from the lenders, then securitize them into Federal National Mortgage Association (Fannie Mae) and Government National Mortgage Association (Ginnie Mae) MBS. The underlying mortgage loans are all fixed-rate, 30-year loans meeting the criteria for guarantee by Fannie Mae and Ginnie Mae. The bonds and MBSs, which provide collateral for the Single Family Mortgage Program bonds, had previously been rated AAA. However, on August 5, 2011, Standard and Poor's Rating Services downgraded the United States of America long-term rating to AA+ due to political risks and rising debt burden. A "Negative Outlook" was also placed on the rating. During 2014, S&P revised the outlook from negative to stable. As a result of the initial U.S. downgrade, Standard & Poor's lowered its rating on certain publicly financed debt issues that are credit enhanced by Fannie Mae and Ginnie Mae. Since the Authority issues single family mortgages that are backed by loans that are credit enhanced by Fannie Mae and Ginnie Mae, the majority of the Authority's single family bond programs currently reflect the U.S. government rating of AA+ with a stable outlook. To date, the Master Servicers, Fannie Mae, Ginnie Mae, and the bond investors have continued to provide liquidity without interruption to the Authority's Single Family Mortgage Programs.

The programs have historically relied on Guaranteed Investment Contracts (GIC) for the temporary investment of bond proceeds and also for the ongoing investment of monthly MBS revenues between debt service dates. The GIC providers must maintain financial strength as evidenced by their credit rating in order for the bonds to maintain their rating. The Authority continues to have difficulty maintaining and securing GIC providers for the Single Family Mortgage Programs as the market recovers and is utilizing AAAm rated money market funds when necessary. Returns on GICs and money market funds are very low, increasing the negative arbitrage experienced by the Authority for these programs. Additionally, some GIC providers have not been able to maintain their minimum required credit rating levels and this has produced some bond rating downgrades in the Authority's portfolio. This presents more of a rating risk versus a financial risk for the Authority, as these funds remain fully invested and cash flows are monitored closely. Due to the lack of GIC providers and historical low reinvestment rates, Standard and Poor's, the Authority's primary rating agency, revised their stress test criteria related to housing bonds and now require that cash flows be run assuming a zero percent reinvestment rate. At this time, all the Authority's single family bonds have met the required cash flow stress tests.

The Authority's investments outside of the Single Family Mortgage Programs are conservative, and include the AAAm rated New Mexico State Treasurer's Office Local Government Investment Pool and internal loan

(A Component Unit of the State of New Mexico)

Management's Discussion and Analysis (Unaudited) September 30, 2014 and 2013

warehousing for short-term investments, highly liquid and marketable intermediate-term Treasury and Agency obligations, and for long-term investment, the nonrated State Investment Council Investment Funds Program utilizing a corporate investment grade bond fund (80%) and a large cap equities fund (20%). To improve investment returns, the Authority has also invested in its own MBS as bond programs become callable. This strategy is helping to improve the investment income picture as that portion of our investment portfolio is yielding close to 5.6% serving as a good intermediate term investment option for the Authority. During this fiscal year, the Treasury and Agency obligations provided yields of 1.4%. Investments in the State Investment Council Investment Funds Program experienced \$1.6 million in fair market value gains in comparison to 2013 when fair market value losses were \$0.2 million. There continues to be extreme market volatility as evidenced by this year over year fluctuation. The overall rate of return on the Authority's State Investment Council Investment Funds Program long-term portfolio for 2014 was 7.4%.

Moving into the new year, the Authority expects to continue to utilize both the secondary market and bond issuance to fund the Single Family Mortgage Program depending on market conditions. The cost of funds in the traditional tax-exempt bond market is expected to be less prohibitive as it is strongly believed we will begin to see an increasing interest rate environment, albeit slow, in FY2015 thus providing more opportunities for the Authority to fund its Single Family Mortgage Program through the issuance of bonds. This not only provides a mechanism for growing the Authority's earning asset base but also provides long-term administrative fee cash flows rather than onetime transaction fees related to loan sales. There will still be challenges in competing with the historically low mortgage interest rates currently offered in the traditional mortgage market. If borrowers have good credit and are not in need of down payment assistance, they may be able to get better mortgage rates elsewhere. The Authority does, however, believe that the down payment assistance programs will help in maintaining program demand and viability.

Market interest rates have an effect on both the Single Family Mortgage Programs and investment income revenues. If interest rates continue at current levels, the Authority expects single family bond program administrative fees and investment income to decrease slightly. If interest rates rise, the Authority expects single family bond program administrative fees and investment income to increase as new loans are originated and new investments are purchased at the higher levels. If interest rates fall, the Authority expects single family bond program administrative fees and investment income to decrease as new loans are originated and new investments are purchased at the lower levels. Interest rate decreases are not anticipated as it is believed that traditional mortgage and reinvestment rates have bottomed out. The Authority expects that the drop in mortgage interest rates over the last few years will continue to cause high prepayments on higher rate mortgages, and conversely, an increase in mortgage interest rates to cause a decrease in prepayments. The Authority uses these prepayments to call the corresponding series bonds. The current economic environment may, however, limit the ability of borrowers to refinance or prepay loans due to falling real estate values or a borrower's personal financial situation. The Authority anticipates that federal funding levels for affordable housing programs are still at risk and could continue to decline, thus decreasing administrative fee income related to those programs.

This financial report is presented to provide our constituents and investors with a general overview of the Authority's finances and to demonstrate the Authority's financial accountability over its resources. If you have questions about the report or need additional financial information, please contact the Deputy Director of Finance and Administration at New Mexico Mortgage Finance Authority, 344 4th Street SW, Albuquerque, New Mexico 87102, or visit our website at www.housingnm.org.

(A Component Unit of the State of New Mexico)

Notes to Financial Statements September 30, 2014 and 2013

(1) Basis of Accounting and Summary of Significant Accounting Policies

(a) Reporting Entity

New Mexico Mortgage Finance Authority (the Authority) is a semi-autonomous instrumentality of the State of New Mexico (the State), created April 10, 1975 under the Mortgage Finance Authority Act (the Act) enacted as Chapter 303 of the Laws of 1975 of the State. Pursuant to the Act, the Authority is authorized to undertake various programs to assist in the financing of housing for persons of low and moderate income in the State. The Authority is led by seven board members. Four of the board members are from the private sector and are appointed by the governor with the advice and consent of the state senate. Three are ex-officio voting members who serve by virtue of their state office, including the lieutenant governor, the state's attorney general and the state treasurer.

On September 19, 2007, the Authority established the not-for-profit legally separate entity of the New Mexico Affordable Housing Charitable Trust (the Trust), which was created to support the purpose and programs of the Authority. The Authority acting through its board of directors in accordance with the Act, is the Trustee. The Authority supports the ongoing operations of the Trust with an annual contribution in the amount of the cost of operations. As such, the Trust is determined to be a blended component unit as defined by Governmental Accounting Standards Board (GASB) Statement No. 39 Determining Whether Certain Organizations Are Component Units – an Amendment of GASB Statement No. 14, and GASB Statement No. 61, The Financial Reporting Entity: Omnibus- an amendment of GASB Statements No. 14 and No. 34.

For financial reporting purposes, the Authority is considered a discretely presented component unit of the State of New Mexico in accordance with GASB No. 14 and No. 61.

Bonds and other obligations issued by the Authority under the provisions of the Act are not a debt or liability of the State or any subdivision thereof.

(b) Basis of Presentation

The Authority presents its financial statements in accordance with GASB Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments (GASB No. 34); GASB Statement No. 37, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments: Omnibus; and GASB Statement No. 38, Certain Financial Statement Note Disclosures.

Effective October 1, 2012, the Authority adopted GASB Statement No. 62, Codification of Accounting and Financial Reporting Contained in Pre-November 30, 1989 and AICPA Pronouncements (GASB No. 62), which supersedes GASB No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting. The adoption of GASB No. 62 had no impact on the Authority's propriety fund accounting policies.

In fiscal year 2013, the Authority adopted GASB No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position (GASB No. 63), which establishes a

(A Component Unit of the State of New Mexico)

Notes to Financial Statements September 30, 2014 and 2013

new statement of net position format that reports separately all assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position (which is the net residual amount of the other elements). GASB No. 63 requires deferred outflows of resources and deferred inflows of resources to be reported separately from assets and liabilities. The financial reporting impact resulting from the implementation of GASB 63 in the Authority's financial statements was the renaming of "Net Assets" to "Net Position," including changing the name of the financial statement from "Balance Sheets" to "Statement of Net Position."

Effective October 1, 2013, the Authority adopted GASB Statement 65, *Items Previously Reported as Assets and Liabilities*. This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities, and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The impact of this Statement to the Authority is a decrease of beginning net position of approximately (\$6.6) million for fiscal year 2013. As per the guidance, the Authority recognized previously deferred bond issuance costs and loan commitment fees. Additionally, the loss of refunded debt transactions was reclassified from Bonds Payable to Deferred Outflows of Resources.

The following summarizes the impact of the restatement to previously reported balances:

Statement of net position as of September 30, 2013		As originally reported		As restated after GASB 65

(c) Basis of Accounting

For financial purposes, the Authority is considered a special-purpose government engaged in business-type activities. The financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting in conformity with U.S. generally accepted accounting principles. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when incurred. All significant intra-entity transactions have been eliminated.

(d) Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(e) Programs

The following describes the nature of the programs maintained by the Authority:

- Single Family Mortgage Programs Accounts for the proceeds from bonds, the debt service requirements of the bonds, and the related mortgage loans for single-family, owner-occupied housing in New Mexico. Each single family bond indenture is accounted for as a segment. See note 18 for segment financial statements.
- Rental Housing Programs Accounts for the proceeds from bonds, the debt service requirements of the bonds, and the related loans to qualified lenders for the purpose of financing multifamily rental housing facilities in New Mexico. Each multifamily bond indenture is accounted for as a segment. See note 18 for segment financial statements.
- General Accounts Accounts for assets, liabilities, revenues, and expenses not directly
 attributable to a bond program. Most of the bond resolutions of the programs permit the
 Authority to make cash transfers to the general accounts after establishing reserves required by
 the bond resolutions. The general accounts financially support the bond programs when

(A Component Unit of the State of New Mexico)

Notes to Financial Statements September 30, 2014 and 2013

necessary. The general accounts include proprietary loan programs developed by the Authority to meet the needs of low- and moderate-income borrowers not served by traditional lending programs. This group of accounts is referred to as the Housing Opportunity Fund and includes the ACCESS Loan program, HERO Loan program, Primero program, Partners program, Build It! Loan Guaranty program, and several down payment assistance programs.

- Housing Programs Accounts for activities and programs financed by federal and state grants
 over which the Authority exercises fiscal and administrative control. The following is a brief
 description of the significant programs:
 - Low-Income Housing Tax Credit Program (LIHTC) The LIHTC program was established to promote the development of low-income rental housing through tax incentives rather than direct subsidies. The LIHTC is a 10-year federal tax credit against a taxpayer's ordinary income tax liability that is available to individuals (directly or through partnerships) and corporations who acquire or develop and own qualified low-income rental housing.
 - HOME Investment Partnership Program (HOME) Congress created the HOME program as part of the National Affordable Housing Act of 1991. The Authority administers the federal funds to carry out program activities related to down payment assistance, homeowner and rental rehabilitation, and multifamily rental housing finance.
 - Section 8 Program The Section 8 program provides housing assistance payments to
 participating owners on behalf of eligible tenants to provide decent, safe, and sanitary
 housing for very low-income families at rents they can afford.
 - The Weatherization Assistance Program (WAP) WAP is a long-term grant program funded by the U.S. Department of Energy and utility companies. The purpose of the program is to make low-income households more energy efficient, thereby reducing the utility bills of these families. The funds may be used for leakage reduction, incidental repairs, health and safety measures, insulation, storm windows and doors, and energy efficiency training.
 - The Low-Income Home Energy Assistance Program (LIHEAP) LIHEAP provides low-income households with a one time cash benefit to help pay their utility bills. Up to 15% of the program grant, the only portion administered by the Authority, can be used for rehabilitation and can be combined with the WAP funds.
 - The Emergency Solutions Grants Program (ESG) ESG provides assistance to units of local government or nonprofit organizations to improve the quality of existing emergency shelters, to help meet the costs of operating emergency shelters, and to provide certain essential social services to homeless individuals and families.
 - Housing Opportunities for Persons with AIDS Program (HOPWA) The HOPWA
 program is designed to provide states and localities with resources and incentives to
 devise long-term strategies for meeting the housing needs of persons with acquired
 immune deficiency syndrome (AIDS) or related diseases.

(A Component Unit of the State of New Mexico)

Notes to Financial Statements September 30, 2014 and 2013

- Neighborhood Stabilization Program (NSP) The primary objective of this program is
 the development of viable urban communities by providing decent housing, a suitable
 living environment, and expanding economic opportunities, principally for persons of
 low and moderate income.
- Tax Credit Assistance Program (TCAP) (Recovery Act Funded) TCAP provided grant funds to State housing credit agencies for capital investments in rental projects that received an award of Low-Income Housing Tax Credits (LIHTC) during the period from October 1, 2006 to September 30, 2009, and required additional funding to be completed and placed into service in accordance with the LIHTC requirements of Section 42 of the Internal Revenue Code (IRC).
- New Mexico Housing Trust Fund (HTF) The HTF's purpose is to provide flexible funding for housing initiatives in order to produce significant additional housing investment in the State. The fund consists of all distributions and appropriations made to the fund. Earnings of the fund shall be credited to the fund, and unexpended and unencumbered balances in the fund shall not revert to any other fund. The Authority is the trustee for the fund. The fund receives revenue from the following recurring sources:

 appropriations and transfers from the State of New Mexico;
 any other money appropriated or distributed to the fund;
 any private contributions to the fund;
 earnings of the fund. Money in the fund is appropriated to the Authority for the purposes of carrying out the provisions of the New Mexico Housing Trust Fund Act, which are to provide affordable residential housing to persons of low or moderate income.
- Land Title Trust Fund (LTTF) Pursuant to the Land Title Trust Fund Act, depository institutions that maintain trust or escrow accounts for customers may establish and make available pooled interest-bearing transaction accounts for title company escrows. The interest earned from this program is forwarded to the LTTF. The account agreement between the depositor and the financial institution shall expressly provide for the required remittance of interest. The Authority is trustee for the fund. The trustee shall deposit in the fund money received by it pursuant to the Low-Income Housing Trust Act and the Land Title Trust Fund Act, and use funds to finance in whole or part any loans or grant projects that will provide housing for low-income persons or for other uses specified in the Land Title Trust Fund Act.

(f) Cash and Cash Equivalents

Certain cash, cash equivalents, and investments are designated by the board of directors of the Authority for specific purposes (note 12). For purposes of the statements of cash flows, the Authority considers all cash on hand and in banks and all highly liquid securities and investments purchased with an original maturity of three months or less held in accounts used primarily for the payment of debt service to be cash equivalents.

(A Component Unit of the State of New Mexico)

Notes to Financial Statements September 30, 2014 and 2013

Restricted cash and cash equivalents include fixed-rate investment agreements, which represent funds invested in unsecured nonparticipating contracts with financial institutions, and are valued at the contract amounts. Such investments are considered highly liquid with an original maturity of three months or less held in accounts, which are used primarily for the payment of debt service. Accordingly, such investments are treated as cash equivalents.

(g) Unrestricted and Restricted Investments

Unrestricted and restricted investments include U.S. government obligations, obligations of government-sponsored entities, mortgage-backed securities (MBSs), and amounts in investment pools of the New Mexico State Investment Council. These securities are stated at fair value based upon quoted market prices and changes in the fair value are reported in the statements of revenue, expenses, and changes in net position as net increase (decrease) in fair value of investments, in accordance with GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools (GASB No. 31).

(h) Securitized Mortgage Loans

Securitized mortgage loans consists primarily of Fannie Mae and Ginnie Mae MBSs, which were pooled and securitized by a contract servicer utilizing Single Family Mortgage Program loans purchased by the Authority. These securities are stated at fair value, and changes in the fair value are reported as revenue in the statements of revenues, expenses, and changes in net position as net increase (decrease) in fair value of investments, in accordance with GASB No. 31. The bond issue trustees use a third-party pricing service to compute the MBS fair value.

(i) Mortgage Loans

Mortgage loans receivable are carried at the unpaid principal balance outstanding less an allowance for estimated loan losses. Mortgage loans are secured by first liens on the related properties, with the exception of down payment and closing cost assistance (DPA) loans. Mortgage loans purchased by the Authority are required to be insured by the Federal Housing Administration (FHA) or private mortgage insurance, or guaranteed by the Veterans' Administration (VA). Conventional loans with a loan-to-value ratio of 80% or less do not require insurance. These policies insure, subject to certain conditions, mortgage loans against losses not otherwise insured, generally for specified percentages of the principal balance due plus accrued interest and other expenses sustained in preservation of the property.

For qualifying borrowers in the Single Family Mortgage Programs, the Authority offers loans to provide DPA. DPA loans are secured by second liens. Additionally, included in mortgage loans as of September 30, 2014 and 2013 were \$5.4 million and \$5.7 million, respectively, of loans to borrowers of certain nonprofit organizations, which are subject to reimbursement provisions in lieu of insurance.

(A Component Unit of the State of New Mexico)

Notes to Financial Statements September 30, 2014 and 2013

(j) Allowance for Mortgage Loan Losses

Losses incurred on mortgage loans are charged to the allowance for mortgage loan losses. The provision for loan losses is charged to expense when, in management's opinion, the realization of all or a portion of the loans or properties owned is doubtful.

In evaluating the provision for loan losses, management considers the age of the various loan portfolios, the relationship of the allowances to outstanding mortgage loans, collateral values, insurance claims, government guarantees, and economic conditions.

Management of the Authority believes that the allowance for mortgage loan losses is adequate. While management uses available information to recognize losses on mortgage loans, future additions to the allowance may be necessary based on changes in economic conditions.

(k) Interest on Mortgage Loans

Interest on mortgage loans is accrued based upon the principal amounts outstanding net of service fee expenses of approximately \$99,000 and \$105,000 as of September 30, 2014 and 2013, respectively. Single family mortgage loans continue to accrue interest through foreclosure since loans are insured, and interest is collected through insurance proceeds. Rental Housing mortgage loans are placed on nonaccrual after 90-days delinquency.

(1) Origination and Commitment Fees

Origination and commitment fees, net of costs, represent compensation received for designating funds for lenders. The Authority recognizes these on an accrual basis.

(m) Bond Issuance Costs

Bond issuance costs, discounts, and premiums are expensed in the period incurred.

(n) Capital Assets

Capital assets are stated at cost, less accumulated depreciation. Furniture, equipment, and software purchased with a unit cost of \$5,000 or more and an estimated useful life greater than one year are capitalized and depreciated based on the straight-line or the sum-of-the-years' digits method over the estimated useful lives of the assets, which range from 1 to 25 years. Depreciation expense is not computed on assets under construction until the asset is put into service. Furniture and equipment purchases less than \$5,000 or with lives of one year or less, and maintenance and repairs, which do not extend the useful lives of premises and equipment, are charged to expense as incurred.

(o) Intangible Assets

Intangible assets represent 1) Purchased servicing rights – the fees the Authority pays to acquire the servicing of loan portfolios. The purchased servicing rights are capitalized and amortized on the effective-interest method over the estimated remaining life of the acquired portfolio; and 2) Internally generated computer software and commercially available software modified using more than minimal incremental effort before being placed into service that would be capitalized if it meets

(A Component Unit of the State of New Mexico)

Notes to Financial Statements September 30, 2014 and 2013

the \$5,000 capitalization threshold and has a useful life of more than one year. If not, related outlays are expensed. The assets are recorded at historical cost and amortized over its useful life once it has been placed in service (three years).

(p) Accrued Arbitrage Rebate

Earnings on certain investments are subject to the arbitrage rebate requirements of the IRC. Accrued arbitrage rebate represents the estimated excess earnings on these investments that must be rebated to the U.S. Treasury Department.

Arbitrage rebate amounts that are the result of investment yields are recorded as a reduction of interest income. Arbitrage rebate amounts that result from gains on sales of investment securities are recorded as a reduction to the net increase (decrease) in the fair value of investments.

(q) Advances on Revenue

Advances on revenue consist primarily of advances from contracts and grants. Revenues are recognized when all applicable eligibility requirements have been met. Advances on revenue are reflected in current liabilities in the accompanying statements of net position.

(r) Compensated Absences

Qualified Authority employees are entitled to accrue vacation leave and sick leave based on their full-time equivalent status.

Vacation Leave

Full-time and part-time employees are eligible to accrue vacation leave based on their length of employment and hours regularly scheduled up to a maximum of 280 hours. At September 30 of each year, any accumulated hours in excess of 280 not taken are forfeited. Accrued vacation leave will be paid to an employee upon termination only after six months of employment. Accrued vacation leave is computed by multiplying each employee's current hourly rate by the number of hours accrued.

Sick Leave

Full-time and part-time employees are eligible to accrue sick leave each pay period based on hours regularly scheduled. Accrued sick leave may be carried over to the next fiscal year. Full-time employees may be paid in cash for accrued sick leave in excess of 400 hours (120 hours maximum) on the first full pay period in January and/or July. The hours will be paid at a rate equal to 50% of the employee's hourly wage. Unused sick leave will not be paid to an employee upon termination. Accrued sick leave is computed by multiplying 50% of each employee's hourly rate by the number of hours accrued in excess of 400.

(A Component Unit of the State of New Mexico)

Notes to Financial Statements September 30, 2014 and 2013

(s) Net Position

Net position is classified as follows:

Net investments in capital assets represent the Authority's total investment in capital assets, net of outstanding debt related to those capital assets.

Restricted for debt service represents those operating funds on which external restrictions have been imposed that limit the purposes for which such funds can be used. The Authority is legally or contractually obligated to spend these funds in accordance with the restrictions imposed by third parties.

Restricted for land title trust and housing trust represents those funds on which restrictions have been imposed that limit the purposes for which such funds can be used. The Authority is legally or contractually obligated to spend these funds for the purposes of carrying out the provisions of the New Mexico Housing Trust Fund Act, the Low-Income Housing Trust Act, and the Land Title Trust Fund Act.

Unrestricted consist of those operating funds over which the board of directors retains full control to use in achieving any of its authorized purposes.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the Authority's policy is to first apply the expense toward restricted resources and then toward unrestricted resources.

(t) Revenues and Expenses

Revenues are classified as operating or nonoperating according to the following criteria:

Operating revenues include activities that have the characteristics of an exchange transaction as well as those that relate directly to programs to assist in the financing of housing for persons of low and moderate income in the State of New Mexico such as a) loan origination and commitment fees; b) program servicing fees; and c) administration fees. Operating revenues also include interest income since lending activities constitute the Authority's principal ongoing operations.

Nonoperating revenues include activities that have the characteristics of nonexchange transactions such as grant award revenues. These revenue streams are recognized under GASB Statement No. 33, Accounting and Financial Reporting for Nonexchange Transactions (GASB No. 33). Revenues are recognized when all applicable eligibility requirements have been met, specifically when expenditures related to the grant awards have been incurred, submitted, and approved for payment.

Expenses are classified as operating or nonoperating according to the following criteria:

Operating expenses include activities that have the characteristics of an exchange transaction such as a) employee salaries, benefits, and related expense; b) utilities, supplies, and other services; c) professional fees; and d) depreciation expenses related to capital assets. Operating expenses also

(A Component Unit of the State of New Mexico)

Notes to Financial Statements September 30, 2014 and 2013

include interest expense since lending activities constitute the Authority's principal ongoing operations.

Nonoperating expenses include activities that have the characteristics of nonexchange transactions such as grant award expenses, which are defined as nonoperating expenses by GASB Statement No. 9, Reporting Cash Flows of Proprietary and Non-Expendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting, and GASB No. 34.

(u) Income Taxes

The income the Authority earns in the exercise of its essential government functions is excluded from federal income tax under Section 115(1) of the IRC. The Trust is exempt from federal income tax under Section 501(c)(3) of the IRC. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

(2) Cash, Cash Equivalents, and Investments

As of September 30, the carrying value of cash and cash equivalents includes the following (in thousands):

	 2014	2013
Cash on deposit at financial institutions	\$ 17,365	7,653
Cash on deposit at New Mexico State Treasurer	4,625	10,131
Cash equivalents not considered deposits:		
Money market accounts	_	22
Money market funds	20,938	40,523
Repurchase agreements	1,128	5,275
Guaranteed investment contracts	 16,921	34,763
	\$ 60,977	98,367

(a) Investment Policy

The Authority's investment policy requires all investments be made in accordance with the prudent investor rule with a primary objective to preserve capital and secondarily to achieve the highest market yield. Investments will be diversified to the extent permitted in Section 58, NMSA 1978 (MFA Act), and Section 6-8-7, NMSA 1978, and as prescribed in its various bond resolutions and trust indentures.

Investments may be made in any investment instrument acceptable under and/or required by any bond resolution or indenture; in obligations of any municipality of New Mexico or the State of New Mexico or the United States of America, rated "AA" or better; in obligations guaranteed by the State of New Mexico or the United States of America; in obligations of any corporation wholly owned by the United States of America; in obligations of any corporation sponsored by the United States of America, which are or may become eligible as collateral for advances to member banks as determined by the board of governors of the Federal Reserve System; in certificates of deposit or time deposits in banks qualified to do business in New Mexico; as otherwise provided in any trust

(A Component Unit of the State of New Mexico)

Notes to Financial Statements September 30, 2014 and 2013

indenture securing the issuance of the Authority's bonds; in contracts for the purchase and sale of obligations of any municipality of New Mexico or the State of New Mexico or the United States of America; in the State of New Mexico Office of the Treasurer Local Short-Term Investment Fund; or in the State of New Mexico State Investment Council Investment Funds Program.

The State Treasurer Local Government Investment Pool (LGIP) is not U.S. Securities and Exchange Commission (SEC) registered. The State Treasurer is authorized to invest the short-term investment funds, with the advice and consent of the State Board of Finance, in accordance with Sections 6-10-10(I) through 6-10-10(O) and Sections 6-10-10(1)A and E NMSA 1978. The pool does not have unit shares. At the end of each month, all interest earned is distributed by the State Treasurer to the contributing entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the fund amounts were invested. The end of the fiscal year credit risk rating and the weighted average maturity (interest rate risk in number days) is available on the State Treasurer's Web site at www.nmsto.gov. Participation in the local government pool is voluntary.

(b) Custodial Credit Risk

The custodial credit risk for deposits is the risk that in the event of a bank failure, the Authority's deposits may not be recovered. The investment policy requires consideration of the creditworthiness in selecting financial institutions. At September 30, 2014 and 2013, the Authority's bank balance was \$11,356,000 and \$7,836,000, respectively. Of this amount at September 30, 2014 and 2013, \$250,000 and \$272,000, respectively, was insured by the Federal Deposit Insurance Corporation (FDIC). The total amounts subject to custodial credit risk at September 30, 2014 and 2013 are \$1,519,000 and \$2,873,000, respectively. Management does not believe the remaining \$9,392,000 and \$4,691,000 is subject to custodial credit risk at September 30, 2014 and 2013, respectively.

All of the Authority's investments are insured, registered, or held by the Authority or its agent in the Authority's name.

The Authority administers public funds for the State Homeless, Innovation in Housing Awards, and Energy Savers Programs. New Mexico statutes require financial institutions to pledge qualifying collateral to the Authority to cover at least 50% of uninsured deposits. All collateral is held by third parties in safekeeping. Additionally, the Authority obtains from each bank that is a depository for public funds, which are in repurchase agreements, pledged collateral in an aggregate amount at least equal to 102% of the public money in each account. No security is required for the deposit of public money that is insured by the FDIC. As of September 30, 2014 and 2013, the Authority had \$2,875,000 and \$2,450,000, respectively, of public funds on deposit that are insured by FDIC or fully collateralized by collateral held by the bank in the Authority's name.

(c) Investment Interest and Credit Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Authority's investment policy requires 1) staggered maturities to avoid undue concentrations of assets in a specific maturity sector, 2) stable income, 3) adequate liquidity to meet

(A Component Unit of the State of New Mexico)

Notes to Financial Statements September 30, 2014 and 2013

operations and debt service obligations, and 4) diversification to avoid overweighting in any one type of security.

The Authority's securitized mortgage loans are primarily mortgage loans originated under various bond resolutions that have been pooled and securitized by a servicer under contract to the Authority (note 1(h)). Upon securitization, these primarily Ginnie Mae and Fannie Mae securities are then purchased by the bond issue trustee utilizing the proceeds of the respective bonds. The bonds in turn are secured, respectively, by the securities purchased with the bond proceeds (note 5). The fixed-rate securitized mortgage loans are sensitive to changes in interest rates, which may result in prepayments of the underlying mortgages.

The Authority had the following investments and maturities at September 30, 2014 and 2013 (in thousands):

	September 30, 2014

(d) Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributable to the magnitude of the Authority's investment in a single issuer. The following issuers and their respective percentage of total investments represent greater than 5% of the Authority's total investments reported on the statement of net position as of September 30, 2014 and 2013, respectively, Ginnie Mae 75% and 76%, and Fannie Mae 19% and 20%.

(A Component Unit of the State of New Mexico)

Notes to Financial Statements September 30, 2014 and 2013

(3) Mortgage Loans

Mortgage loans reflected in the statement of net position consist of the following as of September 30 (in thousands):

	 2014	2013
Total mortgage loan principal outstanding Less:	\$ 182,876	181,451
Allowance for mortgage loan losses	 (2,513)	(2,648)
Mortgage loans, net	\$ 180,363	178,803

An analysis of the allowance for mortgage loan and real estate owned losses is as follows for the year ended September 30 (in thousands):

	 2014	2013
Beginning balance	\$ 2,648	3,380
Provision for loan losses	629	(161)
Loans written off net of recoveries	 (764)	(571)
Ending balance	\$ 2,513	2,648

The mortgage loans have repayment terms ranging from 10 to 40 years. The stated interest rates for these programs are as follows:

Rental housing programs	0.00% to 7.02%
Other mortgage loans	0.00% to 11.60%
Second mortgage DPA loans	0.00% to 7.50%

MBSs have stated interest rates ranging from 2.75% and 9.365%.

As of September 30, 2014 and 2013, mortgage loans with pending foreclosure actions have aggregate principal balances of approximately \$36,000 and \$36,000, respectively. As of September 30, 2014 and 2013, mortgage loans' total delinquent aggregate principal balances are approximately \$7,297,000 and \$7,169,000, respectively.

(A Component Unit of the State of New Mexico)

Notes to Financial Statements

September 30, 2014 and 2013

As of September 30, the Authority acts as servicer for loans owned by the following entities that are not recorded in the Authority's financials (in thousands):

	2014	2013
Southwest Neighborhood Housing Services \$	526	538
State of New Mexico Severance Tax Permanent Fund		1

(A Component Unit of the State of New Mexico)

Notes to Financial Statements September 30, 2014 and 2013

In November 2005, the Authority began issuing single family mortgage program bonds under a General Indenture of Trust dated November 1, 2005 (the General Indenture). The bond issues under this indenture are 2005D through 2009E and 2012A through 2014B. The bonds are secured, as described in the General Indenture and the applicable amended and supplemented Series Indenture, by the revenues, moneys, investments, mortgage loans, MBSs and other assets in the accounts established under the General Indenture and each Series Indenture.

Prior to November 2005, the Authority issued bonds under separate Trust Indentures. The bonds are secured as described in each Trust Indenture by the revenues, moneys, investments, mortgage loans, MBSs and other assets in the accounts established by each respective Trust Indenture.

The single family mortgage loans purchased with the proceeds of all the bond issuances occurring during fiscal years 2014 and 2013 were pooled and packaged as mortgage loan pass-through certificates insured by GNMA or FNMA.

In December 2009, the Authority entered into a General Indenture of Trust dated December 1, 2009 to accommodate those bonds issued under the New Issue Bond Program (the NIBP Program) which was developed by the U.S. Treasury in conjunction with Fannie Mae and Freddie Mac. On December 23, 2009, the Authority issued 2009 Series Bonds (GSE Escrow Bond Purchase Program) in the amount of \$155 million. The interest on the GSE Escrow Bond Purchase Program was a variable rate that produces an interest payment equal to investment earnings. The bonds were placed with Fannie Mae and Freddie Mac with bond proceeds being held in an escrow at U.S. Bank National Association. The purpose of the escrow issue was to store private activity volume cap. The escrow bonds could then be rolled out into a maximum of six bond issues to provide funds to originate mortgage loans with all rollouts being initiated by December 31, 2011.

Under the NIBP Program, a portion of the principal amount is rolled out from the GSE Escrow Bond Purchase Program and purchased by Fannie Mae and Freddie Mac. The other portion of the principal amount is sold in the primary bond market. The NIBP Program allows for relocking the interest rate on the NIBP Program portion of each roll out up to eight days prior to the bond closing. The Authority rolled out three bond issues under the NIBP Program during FY 2011. The final roll out under the NIBP program occurred during FY 2012.

During fiscal year 2014, the Authority continued to issue bonds under the General Indenture of Trust Dated November 1, 2005 as follows:

- \$15.5 million Single Family Mortgage Program Class I Bonds, 2014 Series A Bonds (Non-AMT)
- \$12.5 million Single Family Mortgage Program Class I Bonds, 2014 Series B (MBS Pass-Through Program) (Federally Taxable) combined with funds in the trust estates, Authority General Fund and funds from the 2005 Master Indenture Surplus Account were used to fully refund the Single Family Mortgage Program Bonds 2004 Series B through 2004 Series E. The Authority will realize a \$2.0 million positive cash flow from this refunding and an economic gain of approximately \$2.4 million.

Certain Mortgage Purchase Program bonds were legally defeased in 2005 and 1992 and, therefore, are not reflected on the accompanying statements of net position. The outstanding balance of these bonds totaled

(A Component Unit of the State of New Mexico)

Notes to Financial Statements September 30, 2014 and 2013

approximately \$0 at September 30, 2014 and \$30,000 at September 30, 2013. The bonds are secured, as described in the applicable bond resolution, by the revenues, moneys, investments mortgage loans, MBSs, and other assets in the accounts established by the respective bond resolutions.

(6) Notes Payable

Notes payable at September 30, 2014 and 2013 consist of the following (in thousands):

	_	2014	2013
July 2005 Wells Fargo note bearing interest at 2.00% through August 2016 and thereafter the greater of 6.00% or the			
U.S. Treasury rate minus 3.50% until the loan is fully paid	\$	650	650
November 2011 Wells Fargo note bearing interest at 2.00% through November 2021		850	850
January 2012 USDA Preservation Revolving Loan Fund (PRLF)			
note bearing interest at 1.00% through January 2042	_	1,000	
	\$ _	2,500	1,500

The borrowings were made to raise capital to help fund the Primero Loan Program that provides loans for nonprofit, public, or tribal agency sponsored affordable projects.

(7) Debt Service Requirements

A summary of bond and note debt service requirements as of September 30, 2014 is as follows (in thousands):

		Bonds p	payable	Notes payable

(10) Litigation

The Authority is involved in litigation arising in the ordinary course of business. Management believes the ultimate outcome of any litigation will not result in a material adverse impact on the Authority's financial statements.

(A Component Unit of the State of New Mexico)

Notes to Financial Statements September 30, 2014 and 2013

(11) Employee Benefit Plan

The Authority sponsors the New Mexico Mortgage Finance Authority 401(k) Plan (Benefit Plan). The Benefit Plan is a defined-contribution 401(k) and 457(b) plan, which covers substantially all of the Authority's employees. Participating employees may make voluntary contributions of not less than 3% of the participating employee's annual salary. If the employee makes the minimum 3% voluntary employee contribution, the Authority will make a matching contribution equal to 5% of the participating employee's salary. In addition to the matching contribution, the Authority makes a fixed annual contribution equal to 11% of each participating employee's salary regardless of whether or not the participant makes a voluntary contribution. Plan participants become fully vested in the Authority's contributions after five years of service. The Authority's and employees' contributions to the Benefit Plan were approximately \$592,000 and \$227,000, respectively, for the year ended September 30, 2014. The Authority's and employees' contributions to the Benefit Plan were approximately \$550,000 and \$211,000, respectively, for the year ended September 30, 2013. The Executive Director, Director of Human Resources, and Deputy Director of Finance and Administration have the authority to amend the plans.

(12) Board-Designated Net Position

The board of directors of the Authority has the discretion to reverse any board-designated net position. The board of directors of the Authority designated the following amounts as of September 30, 2014 and 2013 (in thousands):

	 2014	2013
Single family and multifamily programs as designated		
by the board	\$ 17,548	14,689
Future general operating budget, year-end September 30, 2014	11,200	10,125
Housing Opportunity Fund	83,128	82,255
Risk-sharing loss exposure	11,326	11,622
Federal and state housing programs administered by the		
Authority	 9,275	8,279
Total board-designated net position	\$ 132,477	126,970

(13) Commitments and Contingencies

The Authority entered into a risk-sharing agreement with the U.S. Department of Housing and Urban Development (HUD) under Section 542(c) of the Housing and Community Development Act of 1992, whereby HUD and the Authority provide credit enhancements for third party multifamily housing project loans. HUD has assumed 90% of the risk and the Authority guarantees the remaining 10% risk of loss in the event of default on specific loans. As of September 30, 2014 and 2013, the Authority is committed to assume a risk of approximately \$12,264,000 and \$12,174,000 for the 49 and 47 loans closed, respectively. These loans are considered in the Authority's assessment for the allowance for mortgage loan losses. As of September 30, 2014, of the 49 loans closed, 13 of the loans are not included in the Authority's financial statements because they are 100% participations with the AFL-CIO and Fannie Mae. Of the \$12,264,000 risk assumed as of September 30, 2014, the Authority's assumed risk approximated \$2,100,000 for these off balance sheet loans. The end dates for the guarantees range from 2035 – 2044. In situations where the

(A Component Unit of the State of New Mexico)

Notes to Financial Statements September 30, 2014 and 2013

Authority is called upon to honor its guarantee, the Authority will take possession of and sell the loan collateral. HUD and the Authority will make up any shortfall resulting from the sale of the collateral on a 90%/10% prorata basis.

The Authority also entered into a risk-sharing agreement with the U.S. Department of Agriculture under Section 538 Rural Rental Housing Guaranteed Loan Program. The Rural Housing Service (RHS), Department of Agriculture (USDA) provides credit enhancements to encourage private and public lenders to make new loans for affordable rental properties that meet program standards. The USDA has assumed 90% of the risk in the one loan closed and funded by the Authority as of September 30, 2014. As of September 30, 2014 and 2013, the Authority is committed to assume a risk of approximately \$119,000 and \$121,000 for the one loan closed, respectively.

The Authority participates in a number of federal financial assistance programs. These programs are subject to independent financial and compliance audits by grantor agencies. The amount, if any, of expenditures that may be disallowed by the granting agencies has not been determined at this time, although the Authority expects such amount, if any, to be immaterial.

On June 27, 2007, the board of directors approved the write off of two HOME loans: Mesa Grande Apts. Ltd. for \$209,000 and Sunrise Homes Apts. Ltd. for \$229,000. Based on the information available as of September 30, 2014, Management has determined that it is probable that MFA has incurred a contingent liability for the balance of the loans \$438,000, which may be payable to HUD for noncompliance with the affordability requirement. The contingent liability is accrued at year end.

The Authority offers its "Build It!" Loan Guaranty Program to eligible entities, including nonprofit organizations, units of local governments, public housing authorities, and tribal entities. Under this program, the MFA can guarantee up to 50% of a loan to an eligible entity to build or rehabilitate affordable housing. As of September 30, 2014 and 2013, there are no outstanding guarantees to which the Authority has committed.

(14) Risk Management

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Authority carries commercial insurance to cover losses to which it may be exposed.

(15) Joint Powers Agreements and Memorandums of Understanding

The Authority has entered into eight joint powers agreements (JPAs) or memorandums of understanding (MOU) with various departments of the State. At September 30, 2014, these JPAs and MOUs were as follows:

(a) The Authority entered into a JPA with the State Investment Council (SIC) in January 2006. The purpose of the agreement is to establish a relationship under which SIC will act as the investment manager of the Authority's funds. The JPA was effective January 1, 2006 and will continue in force until terminated by the parties.

(A Component Unit of the State of New Mexico)

Notes to Financial Statements September 30, 2014 and 2013

- (b) The Authority entered into a JPA with the New Mexico Department of Finance and Administration (DFA) in April 2009, which was amended June 2009, March 2010, June 2010, June 2013, December 2013, and July 2014. The purpose of the agreement is for the implementation and administration of a subgrant of the HUD Neighborhood Stabilization Program grant. The Authority has the responsibility for program operations. The JPA was effective April 23, 2009 and will terminate June 20, 2015. The maximum amount to be reimbursed under the JPA is \$15,148,000, all of which is applicable to the Authority. The Authority does not contribute funds to this project. The Authority is responsible for the audit of the funds received under this JPA.
- (c) The Authority entered into a MOU with the New Mexico Attorney General in November 2012, which was amended December 2013. The purpose of this agreement is for the Attorney General to transfer funds to the Authority for the purpose of implementing a statewide program to provide comprehensive help to NM homeowners who are in danger of losing their home to foreclosure. The JPA was effective November 9, 2012, and will terminate June 30, 2015. The estimated amount of the project is \$8,749,000, all of which is applicable to the Authority. The Authority does not contribute funds to this project. The Authority is responsible for the audit of the funds received under this JPA.
- (d) The Authority entered into a JPA with DFA in October 2013. The purpose of this agreement is for DFA to transfer funds to the Authority for the purpose of expending funds pursuant to the Housing Trust Fund Act and the Affordable Housing Act. The JPA was effective October 2, 2013, and terminated June 30, 2014. The estimated amount of the project is \$200,000, all of which is applicable to the Authority. The Authority does not contribute funds to this project. The Authority is responsible for the audit of the funds received under this JPA.
- (e) The Authority entered into a JPA with DFA in March 2014. The purpose of this agreement is to set forth the roles and responsibilities of the parties with respect to funding in connection with preparation of the Consolidated Plan and the Annual Plan. The JPA was effective March 18, 2014, and will terminate March 18, 2015. The estimated amount of the project is \$75,000, all of which is applicable to the Authority. The Authority does contribute funds to this project. The Authority is responsible for the audit of the funds received under this JPA.
- (f) The Authority entered into a JPA with DFA in September 2014. The purpose of this agreement is for DFA to transfer funds to the Authority for oversight of the Affordable Housing Act. The JPA was effective July 1, 2014, and will terminate June 30, 2015. The estimated amount of the project is \$250,000, all of which is applicable to the Authority. The Authority does not contribute funds to this project. The Authority is responsible for the audit of the funds received under this JPA.
- (g) The Authority entered into a JPA with DFA in October 2014. The purpose of this agreement is for DFA to transfer funds to the Authority for the purpose of carrying out the provisions of the Housing Trust Fund Act. The JPA was effective July 1, 2014, and will terminate June 30, 2015. The estimated amount of the project is \$500,000, all of which is applicable to the Authority. The Authority does not contribute funds to this project. The Authority is responsible for the audit of the funds received under this JPA.

(A Component Unit of the State of New Mexico)

Notes to Financial Statements September 30, 2014 and 2013

(h) The Authority entered into a JPA with DFA in October 2014. The purpose of this agreement is for DFA to transfer funds to the Authority to provide oversight to regional housing authorities. The JPA was effective July 1, 2014, and will terminate June 30, 2015. The estimated amount of the project is \$199,500, all of which is applicable to the Authority. The Authority does not contribute funds to this project. The Authority is responsible for the audit of the funds received under this JPA.

(16) Related-Party Transactions

In September 2007, the Authority's board of directors approved the creation of the New Mexico Affordable Housing Charitable Trust, a 501(c)3 entity. The purpose of the Trust is to support the purposes and programs of the Authority, to seek gifts and grants of property, to borrow money, and to lend, lease, sell, exchange, or otherwise transfer or distribute property for affordable housing. The Trust is governed by the Authority's board of directors. The Authority supports the ongoing operations of the Trust with an annual contribution in the amount of the cost of operations. During fiscal years 2014 and 2013, the Authority incurred \$2,500 and \$1,000, respectively, on behalf of the Trust. The Authority also made an in-kind contribution to the Trust in the same amount in order to forgive the amount incurred. As of September 30, 2014 and 2013, balances due to/from the Trust were \$0 and \$0, respectively.

In February 2010, the Governor of New Mexico appointed the Executive Director of Santa Fe Community Housing Trust to the Authority's board of directors, whose tenure terminated on March 19, 2014. Santa Fe Community Housing Trust also has a participating ownership in The Village Sage, LLC, Stage Coach Apartments, LLC and La Nueva Querencia, LLC. During the Executive Director's tenure in fiscal years 2014 and 2013, the Authority awarded \$0 and \$8,000, respectively, in grants to Santa Fe Community Housing Trust. During fiscal years 2014 and 2013, the Authority disbursed \$857,000 and \$100,000, respectively, in grants and loans to Santa Fe Community Housing Trust, The Village Sage, LLC and Stage Coach Apartments, LLC.

(17) Subsequent Events

The Authority has evaluated subsequent events from the period ended September 30, 2014 through December 23, 2014, the date at which the financial statements were available to be issued, and determined there are no items that require disclosure.

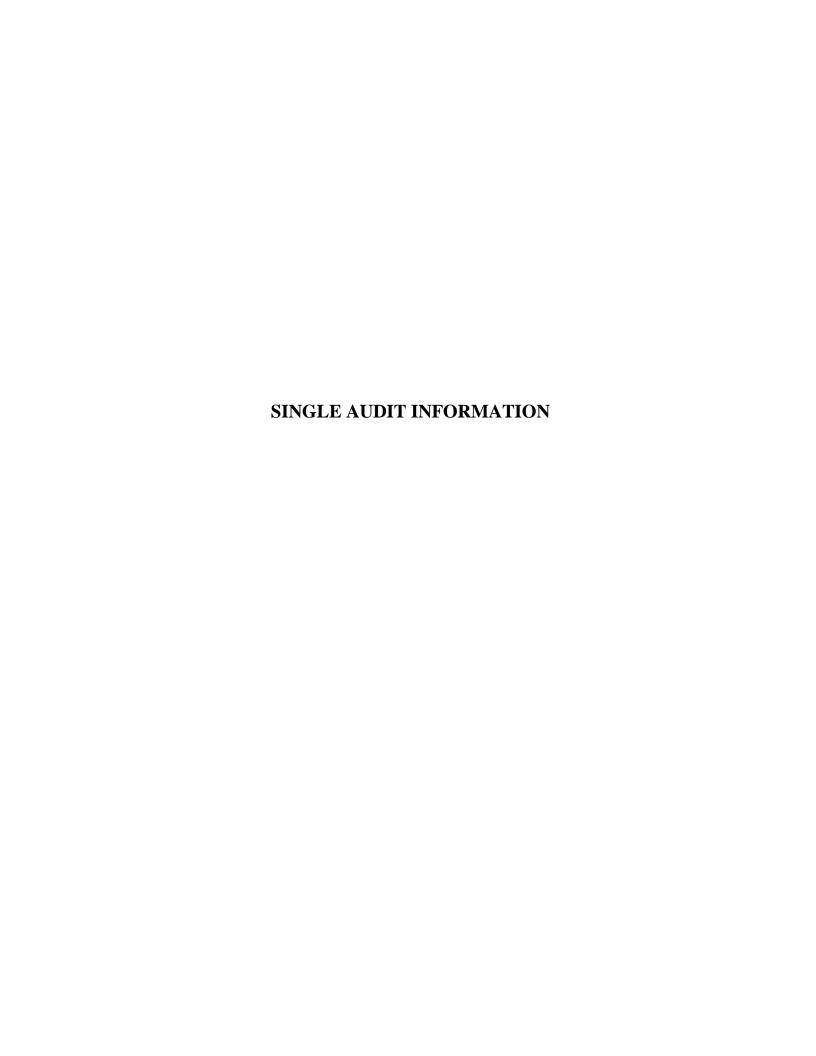

43

(A Component Unit of the State of New Mexico)

Notes to Financial Statements September 30, 2014 and 2013

(18) Segment Financial Information

The Authority issues separate revenue bonds to finance the single family and multifamily mortgage financing programs. The investors in those bonds rely solely on the revenue generated by the individual activities for repayment. Summary of financial information for each bond indenture is presented on the following pages. Management expects to be able to securitize single family mortgage loans to maturity with no funding requirement necessary from the Authority. The deficits in rental housing programs' net position restricted for debt service are primarily attributable to balances that will amortize over the life of the loan, which are not expected to result in long-term deficiencies in these funds.

^{*} Major program as defined by OMB Circular A-133

See accompanying notes to schedule of expenditures of federal awards.

(A Component Unit of the State of New Mexico)

Notes to Schedule of Expenditures of Federal Awards

Year ended September 30, 2014

(1) Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the federal grant activity of the Authority and is presented on the accrual basis of accounting. The Authority's reporting entity is defined in note 1 to the Authority's financial statements. All federal financial assistance received from federal agencies, including amounts passed through from other governmental entities and disbursed by the Authority, is included in the Schedule in accordance with the requirements of Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*.

(2) Relationship to the Authority's Financial Statements

Federal financial assistance program expenditures as presented in the accompanying Schedule primarily represent federal financial assistance payments disbursed by the Authority during the year ended September 30, 2014 or federally insured loans as described in note 3.

(3) Mortgage Insurance and Guarantees

Certain mortgage loans of the Authority are insured by the Federal Housing Administration (FHA) and partially guaranteed by the Veterans Administration (VA). At September 30, 2014, the Authority recorded approximately \$3,292,000 of FHA insured loans. These serviced loans are included on the accompanying Schedule.

The Authority participates in the Risk Sharing loan program, under which the Department of Housing and Urban Development (HUD) provides credit enhancements for multifamily housing project loans. HUD and the Authority share in the risk of loss on the mortgage. HUD has assumed 90% of the risk in 49 loans. HUD's assumed risk approximated \$110,379,000 at September 30, 2014. Of the 49 loans closed, the Authority funded 36 loans with outstanding principal of \$101,772,000 at September 30, 2014. HUD's assumed risk of loss of approximately \$91,595,000 related to these 36 loans is recorded in the accompanying Schedule.

The Authority participates in the Section 538 Rural Rental Housing Guaranteed Loan Program, under which the Rural Housing Service (RHS), Department of Agriculture (USDA), provides credit enhancements to encourage private and public lenders to make new loans for affordable rental properties that meet program standards. The USDA has assumed 90% of the risk in the one loan closed and funded by the Authority. At September 30, 2014, the loan had an outstanding principal of \$1,191,000, of which the USDA assumed risk of loss of approximately \$1,072,000 serviced in the accompanying Schedule.

(4) Loans and Loan Guarantees

Loans and loan guarantees in the accompanying Schedule consist of outstanding principal loans in programs that have ongoing compliance requirements.

(5) Relationship to Federal Financial Reports

Amounts reported in the accompanying Schedule agree with the amounts reported in the related federal financial reports.

(A Component Unit of the State of New Mexico)

Notes to Schedule of Expenditures of Federal Awards

Year ended September 30, 2014

(6) Subrecipients

Of the federal expenditures presented in the Schedule, the Authority provided federal awards to subrecipients as follows:

Federal grants/program title	Federal CFDA number		Amount provided to subrecipients
Section 8 Housing Choice Vouchers	14.195	\$	27,055,526
Neighborhood Stabilization Program (a CDBG grant)	14.228		33,304

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

The Authority Members
New Mexico Mortgage Finance Authority and
Mr. Hector H. Balderas, New Mexico State Auditor:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the business-type activities of the New Mexico Mortgage Finance Authority (the Authority), a component unit of the State of New Mexico, as of and for the year ended September 30, 2014, and the related notes to the financial statements and have issued our report thereon dated December 23, 2014.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The

results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance for Each Major Federal Program and on Internal Control over Compliance

The Authority Members
New Mexico Mortgage Finance Authority and
Mr. Hector H. Balderas, New Mexico State Auditor:

Report on Compliance for Each Major Federal Program

We have audited the New Mexico Mortgage Finance Authority's (the Authority), a component unit of the State of New Mexico, compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Authority's major federal programs for the year ended September 30, 2014. The Authority's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the Authority's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Authority's compliance.

Opinion on Each Major Federal Program

In our opinion, the Authority complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2014.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items 2013-001 and 2014-001. Our opinion on each major federal program is not modified with respect to these matters.

The Authority's responses to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The Authority's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control over Compliance

Management of the Authority is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Authority's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2013-001, which we consider to be a significant deficiency.

The Authority's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The Authority's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

(A Component Unit of the State of New Mexico)

Schedule of Findings and Questioned Costs September 30, 2014

Section II - Financial Statement Findings

None

Section III – Federal Award Findings and Questioned Costs

Finding Number: 2013-001

Federal Agency: U.S. Department of Housing and Urban Development

Program Name: Community Development Block Grant/Neighborhood Stabilization Program (NSP)

CFDA No. and Program Expenditures: 14.228 (\$3,463,573)

Grant Numbers: 09-NSP-2-J-01

Fiscal Program Award Year Ended: 2014

Compliance Requirement: Reporting

Type of Finding: Instance of Noncompliance and Significant Deficiency in Internal Control

Questioned Cost: None

Responsible Division: NSP Program Personnel

Condition

Per OMB Circular A-133 and the Grant Agreement, the program is required to submit bimonthly reports to the funding agent. Of the three reports tested, we noted an instance in one of the three reports where MFA did not accurately support the information submitted to the Department of Finance and Administration as follows:

September 2014:

MFA source document		Bimonthly report	Report item	Difference		
NSP administration expenditures to date per activity – other funds used	\$	54,886	52,687	2,199		

Criteria

Joint Powers Agreement Amendment No. 4 requires MFA to submit bimonthly progress reports. These reports must provide detailed information on MFA's progress toward achieving the required benchmarks.

Cause

The Authority did not ensure the accuracy of the bimonthly report information prior to the report submission.

(A Component Unit of the State of New Mexico)

Schedule of Findings and Questioned Costs
September 30, 2014

Effect

The lack of adequate review increases the risk of inaccurate reporting.

Auditors' Recommendation

We recommend that each report be independently reviewed by someone other than the preparer. This review would entail a review of the report and all relevant supporting documentation to ensure the report is complete and accurate prior to submission.

Response

Management agrees. The final report dated November 1, 2014 was accurately prepared and reviewed by someone other than the preparer. The Neighborhood Stabilization Program grant is in the process of being closed and no additional reports will be required.

(A Component Unit of the State of New Mexico)

Schedule of Findings and Questioned Costs September 30, 2014

Finding Number: 2014-001

Federal Agency: U.S. Department of Housing and Urban Development (HUD)

Program Name: Housing Finance Agencies Risk Sharing Program

CFDA No. and Program Expenditures: 14.188 (\$91,594,826)

Grant Numbers: N/A

Fiscal Program Award Year Ended: 2014

Compliance Requirement: Eligibility

Type of Finding: Instance of Noncompliance

Questioned Cost: None

Responsible Division: Risk Sharing Program Personnel

Condition

For two of two mortgage files tested, we noted MFA did not include the HUD required covenant in the event of a modification of terms of the mortgage.

Criteria

Under the Chapter 6(C) (8), Housing Finance Authority (HFA) Closing and HUD Endorsement of Loan, a mortgage executed under the Risk Sharing program must contain a covenant requiring that, in the event that the HFA and the owner agree to a modification of the terms of the mortgage (e.g., to reflect a reduction of the interest rate if reductions are realized in the underlying bond rates for the project), Section 8 rents would be reduced in accordance with HUD guidelines in effect at the time.

Cause

The Authority was not ensuring that the loan template used for Risk Sharing loans contained all required HUD provisions.

Effect

MFA was not be in compliance with HUD requirements and did not have a process in place to identify the missing clause.

Auditors' Recommendation

Management should review the loan template for the inclusion of all HUD required provisions. Based on communications from HUD, management should include the provision in the template moving forward.

(A Component Unit of the State of New Mexico)

Schedule of Findings and Questioned Costs
September 30, 2014

Response

Management agrees. The Authority's legal counsel will review the Risk Sharing loan document templates to ensure that HUD required provisions are included. The Authority informed HUD of this omission in the document and HUD's responded as follows: "We encourage you to include this clause in your agency's risk sharing mortgages as soon as possible. Given this information, the Department is not requiring your agency to modify the terms of existing mortgages that have already closed to satisfy this requirement. However, from this point on, the clause will need to be included." The Authority will include the clause in all future Risk Sharing mortgages.
