

Homeowner Rehab Project Checklists

This document outlines step-by-step procedures for the Program Administering Entity. Please retain this form in the project file for auditing purposes.

File Organization & Checklist Placement

A 6-part file is ideal for maintaining proper documentation. This checklist should be placed in the first section on the left when opening the file, with intake documents filed underneath. Each subsequent section should follow in order.

Uploading & Verification Process

This checklist must be uploaded with supporting documentation to Housing New Mexico Secure File Transfer system for any section that specifies "MFA Verification". Each verified section should be uploaded as a packet at each stage of the review process. **This checklist must be attached as the cover followed by all documents in the order listed and sent through Secure File Transfer.** Incomplete sections will not be accepted.

Review & Compliance

Housing New Mexico Program Management will be in contact the Program Administering Entity after review. Some sections require multiple staff members to review. Any set up, revision or completion is handled by a separate Housing New Mexico department which may extend processing time.

Important Reminders

Files are reviewed for regulatory compliance. Please refer to the Housing New Mexico HOME Rehab Manual for questions. If after reviewing the manual questions remain, please reach out to the Program Manager.

- ✓ **Please note that any item preceded by a check mark represents a document that MUST be included in submission.**

Agency and Project Information	
Program Administrator:	
Applicant(s) Name:	
Project Address:	
County:	
Property Type:	
Year Home was Built:
